Thank you for all you help on this case. We are looking to go to trial around 5/19. What is your availability that week? Do you know that you are the only chemist I've ever had testify? Every drug case I've had I've been lucky enough to have you!

Thanks,  
Marianne

Hi Marianne,

Yes, I found the technical papers and personal notes. I would have come to the same conclusion. By the way Paul Jazeck worked in the Food Lab for 25 years and then spent 10 years in the Drug lab.

Jim
